

EN

Read the instructions carefully as well as the safety guidelines before use.

1 - DESCRIPTION

- A. Ultra slim concentrator (9 mm)
- B. Automatic Ionic function
- C. Ceramic air outlet grid
- D. Cool air button
- E. «RESPECT» button
- F. Temperature switch (positions 1-2-3)
- G. Air speed switch (positions 1-2)
- H. Removable rear housing
- I. Hanging loop
- J. Turbo-charge button

2 - SAFETY

- For your safety, this appliance complies with the applicable standards and regulations (Low Voltage Directive, Electromagnetic Compatibility, Environmental...).
- The appliance's accessories become very hot during use. Avoid contact with the skin. Make sure that the supply cord never comes into contact with the hot parts of the appliance.
- Check that the voltage of your electricity supply matches the voltage of your appliance. Any error when connecting the appliance can cause irreparable harm, not covered by the guarantee.

- For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying the bathroom. Ask for installer for advice.

The installation of the appliance and its use must however comply with the standards in force in your country.

WARNING: do not use this appliance near bath-tubs, showers, basins or other vessels containing water.

When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

When using the appliance in the bathroom, unplug it after use as the presence of water nearby may pose a danger even when the appliance is turned off.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

Stop using your appliance and contact an Authorised Service Centre if:

- its does not work correctly.

The appliance must be unplugged with a heat-sensitive safety device. In the event of overheating (for example if the rest grill is blocked), the dryer will stop automatically: contact the After Sales Service.

The appliance must be unplugged:

- before cleaning and maintenance procedures;

- if it is not working correctly;

- as soon as you have finished using it;

- if you leave the room, even momentarily;

- Do not use if the cord is damaged.

- Do not immerse or put under running water, even for cleaning purposes.

- Do not hold with damp hands.

- Do not hold the appliance by the casing, which is hot, but by the handle.

- Do not plug by pulling on the cord, rather pull out by the plug.

- Do not use an electrical extension lead.

- Do not clean with abrasive or corrosive products.

- Do not use at temperatures below 0°C and above 35°C.

GUARANTEE :

Your appliance is designed for use in the home only.

It should not be used for professional purposes.

The guarantee becomes null and void in the case of improper use.

3 - USE

• «IONIC-CERAMIC» System (1): your hair dryer will automatically dispense negative ions which reduce static electricity, add shine to your hair and make your hair easier to manage. This effect is reinforced by the gentle radiant heat emitted by the ceramic coating.

• SEPARATE SPEED AND TEMPERATURE SETTINGS (2-3-4):

• «RESPECT» SETTING (5):

- Turn on the appliance.

- Turn on the RESPECT function by pressing the RESPECT switch.

The screen on your hair-dryer will light up and the word RESPECT will appear. You are now in automatic mode. A steady temperature of 65°C and an air flow of 15m/sec protects your hair and dries it efficiently.

The temperature and speed controls have no effect in RESPECT mode.

*Test conducted by external laboratory compared with conventional drying at maximum setting (France, April 2010).

4 - ACCESSORIES (DEPENDING ON MODEL)

- Concentrator: (6-7)
- «Classic Volume» diffuser (8-9)
- «Moving Massager» diffuser (10-11)

5 - CLEANING

Warning: always unplug the appliance before cleaning it.

Your hair dryer requires very little maintenance. You can clean it, as well as the accessories, with a slightly damp cloth to remove any hair or impurities that may be clinging to the rest grid.

• Removable rear housing (12).

ENVIRONMENT PROTECTION FIRST!

① Your appliance contains valuable materials which can be recovered or recycled.

Leave it at a local civic waste collection point.

Перед тем как воспользоваться прибором, уважно прочитайте инструкцию с використанням і порадами з техніки безпеки.

• В целях Вашої безпеки цей прилад відповідає нормам та правилам (нормативні акти, касаючіся низького напруження, електромагнітної сповільненості, охорани оточуючої среды та ін.).

• Деталі приладу сильно нагріваються во время работы. Будьте осторожны, не допускайте сприкосновення поверхности приладу з кожей. Следите за тем, чтобы шнур питания не касался горячих поверхностей приладу.

• Ведите, что рабочее напряжение Вашей электросети соответствует напряжению, указанному на заводской табличке прилада. Любая ошибка при подключении прилада может привести к необратимым повреждениям, которые не покрываются гарантією.

• Для дополнительной защиты рекомендуется подключение устройства защитного отключения (УЗО) с nominalным дифференциальным рабочим током не выше 30mA к электрической цепи ванной комнаты. Проконсультируйтесь с вашим установщиком.

• Установка прибора и его использование должно соответствовать действующим в стране пользователям нормативам.

• ВНИМАНИЕ: не используйте это устройство близко ванны, душевых, бассейнов или других емкостей с водой.

• При использовании устройства в ванной комнате, отключите его от сети после использования, поскольку близость воды представляет опасность, даже когда устройство отключено.

• Устройство не предназначено для использования под душем, ванными, басейнами, купальнями и т.д.

• Устройство не предназначено для использования вблизи воды.
